

Secret key for two-factor authentication

Your emergency access to your mailbox.

Secret key (for one-time use only)

Created on: 23.01.2026

jFTad-yjqJ7-U7qvi-smxui

You can now access your mailbox with the secret key:

- If you lose your mobile phone or it breaks.
- If you no longer have access to your authentication app.
- If you set up a new smartphone.
- If you change your mobile phone number.
- If you forget your email password.

Please note: In all of the aforementioned cases, the secret key is the only way to gain access to your mailbox.
